Summary

Motivated front-end web developer with a Bachelor's degree in Computer Science. Proficient in HTML5, CSS, and JavaScript. Skilled in ReactJs, Redux Toolkit, Hooks, CI/CD and REST API enhancing application responsiveness by 30%. Developed 5+ projects, ensuring responsiveness and user-friendly interfaces using Git and Github. Proven problem-solving skills, committed to continuous learning. Seeking opportunities to contribute to front-end projects and deliver impactful solutions with a passion for coding and quick learning ability.

Skills

- HTML | CSS | Java | JavaScript | TypeScript | MySQL | Node | Express | React | Vue | Redux | jQuery | Git
- Cloud Computing | CI/CD | Unit Testing

Experience

Web Development Internship

The Spark Foundation

Remote 02/2023 - 03/2023

- Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript, resulting in a 25% increase in page load speed and a 15% decrease in bounce rate.
- Assisted in troubleshooting and resolving frontend issues promptly, minimizing downtime by 30% and maximizing user satisfaction, ensuring high-quality and error-free code.
- Actively participated in Agile development methodologies, attending daily stand-up meetings, and delivering assigned tasks within deadlines, maintaining a 95% on-time task completion rate.

Java Internship

InternPe

Remote 03/2023 - 04/2023

- Gained hands-on experience in coding high-performance programs using various frameworks and technologies, resulting in a 20% improvement in program efficiency compared to previous implementations.
- Actively participated in learning opportunities and workshops, expanding knowledge of Java programming concepts and industry trends.
- Assisted in troubleshooting and debugging Java applications, identifying and resolving issues in a timely manner, resulting in a 30% reduction in application downtime and improved overall system stability.

Education

Bachelor of Technology

Sambalpur University Institute of Information Technology

Burla, Odisha India 08/2019 - 05/2023

- Major in Computer Science Engineering, GPA - 8.1/10

Projects

- **AI Summarizer:** Built a web application that utilizes OpenAI's GPT model to create a powerful Article Summarizer tool.
- Aim to have at least 100 summarizers generated daily. [Link](#)
TechStack: ReactJs, Vite, JavaScript, Tailwind Css.
- **Crypto - App:** Developed a user-friendly and feature rich application designed for tracking the price and performance of various Cryptocurrencies. [Link](#)
- Achieving 50% faster loading times and enhanced mobile responsiveness.
TechStack: ReactJs, JavaScript, APT.
- **Netflix - Clone:** Created a responsive user interface for seamless browsing and searching movie information, mirroring the original Netflix. [Link](#)
- Achieved a 30% increase in page load speed and 40% enhancement in mobile responsiveness.
TechStack: HTML, Tailwind Css, JavaScript, ReactJs, API.

Certification

- **Certified Full Stack web Development with Reactjs and MongoDB by Udemy:** The course covers a wide range of topics, including Setting up development environments, building user interfaces with ReactJs and working with databases using MongoDB. [\[Link\]](#)
- **Certified Java Programming by Udemy:** Learn the core concepts of java, including variables, data types, operators, control structures, and object Oriented programming principles. [\[Link\]](#)
- **Certified Data Visualisation by Forage:** Gain a solid understanding of the principles of data visualization, including the importance of Selecting the right type of chart or graph for different types of data. [\[Link\]](#)
